

An architectural rendering of a modern residential development. The scene features several multi-story buildings with a prominent metal and glass facade. The buildings have unique, angular designs with some featuring balconies and greenery. In the foreground, there is a landscaped area with trees, a paved walkway, and a small pond. To the right, a body of water is visible with several boats docked at a pier. The sky is blue with scattered clouds. The overall atmosphere is bright and modern.

A lovely 1 bed suite apartment, with open plan reception room, modern kitchen and balcony on the 4th floor of this forthcoming riverside development. Riverlight is an architectural classic of the future, created by world-renowned architects Rogers Stirk Harbour + Partners. The development will eventually consist of six modern and elegant pavilions specifically designed to maximise the sunlight within and optimise the views out. All apartments have private terraces, creating a genuinely integrated inside and outside living space. Landscaped gardens offer riverfront walks, bars, restaurants and al fresco spaces to relax in and enjoy. A range of shops, a crèche and a hotel add even more choice. An exclusive residents' clubhouse offers a unique 'third space' between home and work in which to socialise, exercise and be entertained, from a private screening room to virtual golf; club lounge to pool, gym and spa. For more details and a brochure for this amazing new development don't hesitate to call us

Lease: 999 Years From New / Service Charge: Approx £1964pa / Ground Rent: £400pa
